## Notes

### 1. Conduct of International Advanced Level Examinations

- International Advanced Level (IAL) qualifications are not available to students in the United Kingdom and examination start times are not based on UK GMT/BST. Therefore start times for IAL exams will differ from those of the GCE A level.
- All centres must adhere to the start times and supervision periods for their region outlined in the 'Timetabling international advanced level examinations policy' available on <http://www.edexcel.com/policies/Pages/default.aspx>
- Centres can start the International Advanced Level examinations up to 30 minutes earlier, or later than, the published local start time for each examination session without the need to complete any paperwork.
- **In exceptional circumstances** Pearson may allow a centre to start examinations at times other than within 30 minutes of the published local start time. Centres must request permission from Pearson in advance. Information on how to make a request can be found in the 'Timetabling international advanced level examinations policy' available on <http://www.edexcel.com/policies/Pages/default.aspx>
- The examination start times indicated in the 'Timetabling international advanced level examinations policy' available on <http://www.edexcel.com/policies/Pages/default.aspx> require students in some regions to be supervised before or after examinations are taken. For details on the supervision requirements of all students, centres should make reference to the JCQ publication 'General and Vocational Qualifications: Instructions for the conduct of examinations'

### 2. Key Dates
